About Me

I design and develop engaging digital learning experiences that transform complex topics into interactive, learner-friendly journeys. With over 10+ years of experience, I bring a unique strength in creating game-based and corporate e-learning modules that not only capture attention but also deliver measurable results. My background in K-12 education has further honed my ability to create standards-aligned and inclusive learning materials tailored for diverse learners.

Areas of Exposure/Expertise

- Expertise with custom e-Learning designs & development of engaging games & interactions for better learning experiences, with visually compelling layouts & animations and a committed delivery of learner oriented, highly interactive tasks using Articulate 360 software.
- Exceptional experience in designing fun & engaging lessons, tutorials & scenarios with a touch of instructional design, planned ahead storyboards, custom designed interactive tasks, all of which delivered through a dedicated strategy of the development process.
- Experience in designing template layouts to custom menus to fun and engaging animations, detailed oriented designs to help make lessons, tutorials, quizzes and a whole lot of other deliverables stand out in highly engaging courses.
- Worked with team and staff members to develop and design learning content including, but not limited to, eLearning modules, user guides, assessments and surveys.
- Aptitude to understand highly technical topics and turn those topics into easy to understand video scripts
- Knowledge of the design and implementation of assessment tools for content and learning objectives
- Knowledge of all flavours of SCORM
- Exceptional experience in making coordinated Design Document, Style Guides, Storyboards, narrations scripts (English & vernacular), interactions and media assets (graphics, text, audio, and video) while adhering to sound instructional design principles.
- Hands-on experience of utilization of principles of instructional design and application of different adult learning styles in course design and development
- Expertise in identification of best practices for the design, development and implementation of learning content basis AIDDIE Model

CORE SKILLS

Instructional Designing

Transforming raw content into objective-aligned, dev-ready journeys—chunked, sequenced, and mapped to activities, checks, and feedback across video, e-learning, or LMS

SCORM Compliant Learning Builds

Designing SCORM-ready, LMS-scale modules—interactive, mobile-first builds that use case studies, scenarios, and varied assessments to map the learning objectives

Game-based Learning

Building game-native learning where objectives map to levels with gated progression and a game-like UI/UX, turning engagement into retention and skill transfer.

Experience

E-Learning Developer & Instructional Designer (Contract)

Zinnion | Gurgaon

August 2025 to Present

- Creating interactive e-learning modules and designed engaging micro learning nuggets
- Customizing and updating e-Learning modules for corporate clients(primarily BFSI)
